## WORK EXPERIENCE

### MICROSOFT

#### Senior Designer, Azure Machine Learning

July 2019- To date

- 1. Helped drive the migration of three external experiences into a single consolidated experience helping launch Azure Machine learning for both internal and external users
- 2. Drove the end to end design experience for 9 product feature areas in the platform
- 3. Drove the design focus on all accessiblity areas especially WCAG 2.1 compliance
- 4. Interviewed and onboarded multiple design candidates to the team

#### Senior Designer, Experimentation and analysis platform

July 2016- July 2019

- 1. Was the first ever UX hire for the team and helped introduce design into the development process
- 2. Drove the design focus for all the tools of the experimentation platform including the experiment authoring experience, xCard (scorecarding) and metrics authoring

### HARMAN INTERNATIONAL

#### Principal Designer, UX Consulting

March 2015- July 2016

- 1. Drove design projects end to end for multiple clients including Harman International, Microsoft and Merill International
- 2. Built and lead an onsite\offshore team of 6 UX designers and front end developers

### ADITI TECHNOLOGIES

Aditi technologies was acquired by Harman connected services in January 2015

#### Senior UX Consultant

July 2012-February 2015

- 1. First formally trained UX hire in the team
- 2. Built the UX practice for the newly formed Aditi design team called Litehouse
- 3. Helped build the team up from 3 people to about 100+
- 4. Delivered end to end UX solutions for multiple clients including Microsoft, IACP, Zonar, Mercedes Benz, Boeing and Blue Nile
- 5. Brought in 500K USD in direct revenue and 1.5M USD in indirect revenue to the team
